

Alice Role Creation Agreement

DRAFT PLACEHOLDER - Version DRAFT-1.0

This document is placeholder content for testing only. It will be replaced by the official agreement before production use.

1. Purpose: Roles created from the DnA Alice Role Request page are used to grant access to DnA-managed resources.
2. Responsibility: As role owner and approver, you are responsible for reviewing and approving membership requests for the role.
3. Least privilege: Grant role membership only to users who need it for their work.
4. Access reviews: You will complete the periodic access reviews for the role.
5. Ownership changes: Transfer role ownership before you leave the team or the organisation.
6. Compliance: Use the role in line with the applicable data classification and compliance policies.

By ticking the agreement checkbox on the Alice Role Request page you confirm that you have read and accept this agreement.
